

Eden visited a karaoke room with his family and performed a song or two!

He joined the lunch time club (art)

He had a special moment with his grandad and played Cluedo and Uno but generally loves playing board games with his friends.

Eden helps everyday by bringing down the washing, organising it into different colours. He also helps his sister hang up the washed clothes on the maiden.

We often look through his stuff and see if he wants to give any bits to anyone else or a charity shop. He even has bits that he needs to bring to school for the forestry school.

We have made a list and gone to the shops and bought it and he even did the self-check scan and paid using mum's card. Included in this was buy a load of bread.

Eden can put on his coat and zip it up.

He uses his knife and fork correctly

We always go camping, on some adventure through fields, beaches, stepping stones over streams or rivers. He has camped in his garden.

We visited a few museums such as Eureka, National History Museum.

Whenever there is a beach Eden loves to build sand castles especially with his mummy and it also always involves a dinosaur or two.
