

RSE Curriculum

INTRODUCTION

Any teaching about love and sexual relationships in a Catholic school must be rooted in the Catholic Church's teaching about what it is to be truly human in Christ, what it means to live well in relationship with others and be presented within a positive framework of Christian virtue. For this reason, we speak about relationship and sex education (RSE) rather than sex and relationship education (SRE), since this emphasises the importance of healthy relationships to human well-being, as the core learning within an RSE curriculum.

Pedagogical principles

A good RSE programme must enshrine core pedagogical virtues – that is, it must, above else, qualify as good education.

Therefore, it will be:

Progressive & Developmental

The learning needs to reflect each stage of the development of the person. It needs to be part of both the Primary and Secondary phase of education and it needs to be appropriate to the age and stage of development of children and young people during the different phases of their education. It also needs to be continuous and developmental. It should be a process which is planned from beginning to end with one phase of education informing the work of the next so that children and young people can be led to a deeper and fuller understanding by degrees at a rate which corresponds to their maturing.

Differentiated

Schools must ensure that RSE is sensitive to the different needs of individual children and is taught in a way that allows access to those children at different stages of cognitive and emotional development. Learning and teaching methods will need to be adapted and specialist resources and training will need to be provided for those with particular needs. Schools, therefore, should ensure that children with special educational needs and disabilities are not at any point withdrawn from RSE because of lack of resources and training or to catch up in other subjects.

Cross-curricular

Since a Catholic school is committed to the education of the whole person, teaching on relationships and sexuality needs to be reflected in each relevant part of the curriculum. Whilst, for example, some aspects of RSE will be more appropriately explored in science lessons and some more appropriately explored in RE lessons, each should be informed by the other. Each discipline should speak with consistency about the meaning of human love and the virtues that are enshrined in the Church's teaching on human love.

Integrated

A well-planned programme will not just ensure that there is correspondence between phases and across disciplines but will ensure that parents are fully involved in the planning and evaluation of the teaching of relationships and sexuality. Ideally, children should hear a consistent message about the meaning and value of human sexuality at home, in the parish and at school. This can only be achieved if the home, parish and school work to integrate the teaching of RSE.

Co-ordinated

None of these educational goals are possible if RSE is not given the time and importance it deserves by those who plan and implement its delivery in school. RSE must be taken seriously by school leaders; led properly by someone who has the time and expertise to co-ordinate the subject with dedication and commitment at a senior level; taught by those committed to doing it well; taught as part of a whole-school approach by those who are able to celebrate – not merely tolerate the teaching of the Church on love and human sexuality.

Balanced

Whilst promoting Catholic virtues, schools should ensure that children and young people are offered a broad and balanced RSE programme which provides them with clear factual, scientific information when relevant and meets the statutory requirements placed on schools.

The structure of our RSE curriculum.

Our RSE curriculum covers EYFS and KS1 and is based on three core themes within which there will be broad overlap. It is adaptable to the age and ability of the children.

The three themes are:

- 1. Created and loved by God** (this explores the individual) The Christian imperative to love self, made in the image and likeness of God, shows an understanding of the importance of valuing and understanding oneself as the basis for personal relationships.
- 2. Created to love others** (this explores an individual's relationships with others) God is love. We are created out of love and for love. The command to love is the basis of all Christian morality.
- 3. Created to live in community** – local, national & global (this explores the individual's relationships with the wider world) Human beings are relational by nature and live in the wider community. Through our exchange with others, our mutual service and through dialogue, we attempt to proclaim and extend the Kingdom of God for the good of individuals and the good of society.

We will be using **Ten Ten's** programme for Catholic primary schools, **Life to the Full**, to teach Relationships Education and Health Education.

This scheme has been recommended by the Bishop of Shrewsbury and ensures that RSE is taught within the context of a Christian understanding of human sexuality rooted in the wisdom and teaching of the Catholic Church.

The framework of the programme covers all the themes described above which are taken from the Catholic RSE Programme by the Catholic Education Service, which has been highlighted by the Department of Education as a work of good practice. Life to the Full is a fully resourced scheme of work in Relationships and Health Education for Catholic primary schools which embraces and fulfils the new statutory curriculum. Taught with a spiral approach to learning, the pupils revisit the same topics at an age-appropriate stage through their school life. The entire teaching is underpinned with a religious understanding that our deepest identity is as a child of God – created, chosen and loved by God. The programme is fully inclusive of all pupils and their families.

Each theme covers the core strands of 'Education in Virtue' and 'Religious Understanding' as well as strands which cover the PSHE content of the theme.

We will be covering the Ten Ten Pathway #2. This programme pathway delivers the programme over three terms on a two-year cycle.

In this pathway:

- Nursery and Year One undertake Module 2 (Created to Love Others)
- Reception and Year Two undertake Module 1 (Created and Loved by God)
- All year groups will undertake sessions from Module 3 (Created to live in Community).

The Gospel story sessions in Module 1 and the Trinity story sessions in Module 2 are run every year as they are foundational to the religious understanding taught in the programme. (See Long Term Plan for more information)

Christian virtue and RSE

Each theme begins with a statement of the virtues which are necessary to living well in relationships with others and these virtues should underpin the teaching but also should emerge as a consequence of it. Virtues are habits which are learned from experience, and are gained through imitation the same virtues being modelled by those who teach. They express the qualities of character that schools should seek to develop in their children, through their exemplification by the whole community of which the children are a part. These virtues reflect our Christian tradition but they are also, of course, fundamental human virtues which are universally shared.

Theme 1: Created and Loved by God

RHSE: EYFS & KS 1		Where is it going to be taught eg Topics, PHSE, RE	
		EYFS	KS1
Education in Virtue	<p>In a Catholic school, children are growing to be:</p> <p>Respectful of their own bodies and character.</p> <p>Appreciative for blessings.</p>	<p>Nursery: WTL: God's World PSHE: new school, feelings</p> <p>Reception: PD, health and self-care – topics, circle time Harvest, Christmas Mission Together</p>	<p>Year 2: PSHE –Respectful relationships WTL – Good News</p> <p>Year 1: WTL– God's great Plan PSHE – Who am I?
